Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

One of the reason's I have a Tracfone is because it is inexpensive. I feel that if you raise the price for NO REASON I may have to go with a different service. It is unfair to change the policy without getting anything in return. Also you should inform every Tracphone customer why you need to increase our rates, because I think we already pay more than enough as it is just to use a phone.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Krist Wainwright
